Environmental Biology of Fishes **71:** 419–421, 2004.

Volume 71

Full papers

Adhesion by paired pectoral and pelvic fins in a mountain-stream catfish, *Pseudocheneis sulcatus* (Sisoridae) by D. Das & T.C. Nag 1–5

Fish chromatophores as biomarkers of arsenic exposure by T. Allen, A. Awasthi & S.V.S. Rana 7–11

Courtship and spawning behavior in the California sheephead, *Semicossyphus pulcher* (Pisces: Labridae) by M.S. Adreani, B.E. Erisman & R.R. Warner 13–19

Evidence for two morphotypes of lake charr, *Salvelinus namaycush*, from Great Bear Lake, Northwest Territories, Canada by N.R. Alfonso 21–32

Seasonal and habitat influences on fish communities within the lower Yasuni River basin of the Ecuadorian Amazon by K. Galacatos, R. Barriga-Salazar & D.J. Stewart 33–51

Cathodoluminescence microscopy: A useful tool for assessing incremental chemical variation in otoliths by N.M. Halden, K. Mathers, J.A. Babaluk & S.R. Mejia 53–61

Characterization of the aerial escape response of the African butterfly fish, *Pantodon buchholzi* Peters by W.M. Saidel, G.F. Strain & S.K. Fornari 63–72

Timing of recruitment events, residence periods and post-settlement growth of juvenile fish in a seagrass nursery area, south-eastern Australia by K.A. Smith & M. Sinerchia 73–84

No genetic evidence for hybridization between Rio Grande sucker, *Catostomus plebeius*, and the introduced white sucker, *Catostomus commersoni*, in the Rio Grande by M.V. McPhee & T.F. Turner 85–93

Trophic structure of fish assemblages in five permanent lagoons of the high Paraná River floodplain, Brazil by D. Peretti & I. de Fatima Andrian 95–103

Ecological aspects of the downstream migration of introduced European eels in the Uono River, Japan by T. Miyai, J. Aoyama, S. Sasai, J.G. Inoue, M.J. Miller & K. Tsukamoto 105–114

Full papers

Identification of spawning sites and natural nurseries of fishes in the upper Paraná River, Brazil by G. Baumgartner, K. Nakatani, L. C. Gomes, A. Bialetzki, P. Vanderlei Sanches & M. C. Makrakis 115–125

Threatened fishes of the world: Galaxias auratus *Johnston, 1883 (Galaxiidae)* by S. A. Hardie, L. A. Barmuta & R. W. G. White 126

Is sexual segregation in the guppy, *Poecilia reticulata*, consistent with the predation risk hypothesis? by D. P. Croft, M. S. Botham & J. Krause 127–133

Estimation of shark home ranges using passive monitoring techniques by M. R. Heupel, C. A. Simpfendorfer & R. E. Hueter 135–142

Defining the fundamental physiological niche of young estuarine fishes and its relationship to understanding distribution, vital metrics, and optimal nursery conditions by M. S. Peterson, B. H. Comyns, C. F. Rakocinski & G. L. Fulling 143–149

Ecology and population structure of the bayou darter, *Etheostoma rubrum*: disjunct riffle habitats and downstream transport of larvae by W. T. Slack, S. T. Ross & J. A. Ewing III 151–164

Contribution to the biology of Zagros tooth-carp, *Aphanius vladykovi* (Cyprinodontidae) in central Iran by Y. Keivany & N. M. Soofiani 165–169

Age and growth of the blacknose shark, *Carcharhinus acronotus*, in the western North Atlantic Ocean with comments on regional variation in growth rates by W. B. Driggers III, J. K. Carlson, B. Cullum, J. M. Dean, D. Oakley & G. Ulrich 171–178

Geographic variation in the growth of white croaker, *Pennahia argentata*, off the coast of northwest Kyushu, Japan by A. Yamaguchi, G. Kume, T. Higuchi & T. Takita. 179–188

Comparison of growth and condition indices of juvenile flatfish in different coastal nursery grounds by C. Gilliers, R. Amara, J.-P. Bergeron & O. Le Pape 189–198

Reproductive biology of the school shark, *Galeorhinus galeus*, off Argentina: support for a single south western Atlantic population with synchronized migratory movements by L. O. Lucifora, R. C. Menni & A. H. Escalante 199–209

Corrigendum: Permanent and seasonal expressions of sexual dimorphisms in a weakly electric fish, *Mormyrus rume proboscirostris* Boulenger 1898 (Mormyridae, Teleostei) by P. Moller, C. Schugardt & F. Kirschbaum 211–222

Full papers

Latitudinal compensation in female reproductive rate of a geographically widespread reef fish by T. Kokita 213–224

Appetitive conditioning technique reveals behavioural limits to passage performance in fishes by T. R. Binder & E. D. Stevens 225–232

Fish humps in two Colorado River fishes: a morphological response to cyprinid predation? by D. E. Portz & H. M. Tyus 233–245

Threatened fishes of the world: Scardinius scardafa *(Bonaparte, 1837) (Cyprinidae)* by P. G. Bianco 246

The habitats exploited and the species trapped in a Caribbean island trap fishery by V. H. Garrison, C. S. Rogers, J. Beets & A. M. Friedlander 247–260

The social organization of adult blue tangs, *Acanthurus coeruleus*, on a fringing reef, Barbados, West Indies by I. E. Morgan & D. L. Kramer 261–273

The influence of residential and cottage development on littoral zone fish communities in a mesotrophic north temperate lake by D. Taillon & M. G. Fox 275–285

Interactions between an introduced piscivore and a native piscivore in a California stream by M. F. Gard 287–295

Threatened fishes of the world: Astroblepus ubidiai *(Pellegrin, 1931) (Astroblepidae)* by L. A. Velez-Espino 296

Relationships between condition factors, parasite load and paternity in bluegill sunfish, *Lepomis macrochirus* by B. D. Neff & L. M. Cargnelli 297–304

Migration speeds and orientation of Atlantic salmon and sea trout post-smolts in a Norwegian fjord system by E. B. Thorstad, F. Økland, B. Finstad, R. Sivertsgård, P. A. Bjørn & R. S. McKinley. 305–311

Full papers

Effect of size on the energy acquired in species of the fish from a neotropical reservoir, Brazil by E.B. Cecilio, A.L. Pereira & C.M. Sakuragui 313–320

Stream fish communities and their associations to habitat variables in a rain forest reserve in southeastern Brazil by P. Gerhard, R. Moraes & S. Molander 321–340

Influences of the reproductive cycle on condition of marine catfishes (Siluriformes, Ariidae) in a coastal area at southeastern Brazil by I.D. Gomes & F.G. Araújo 341–351

Threatened fishes of the world: Barbus caninus *Bonaparte, 1839 (Cyprinidae)* by P.G. Bianco & G. Delmastro 352

Partitioning of food resources among *Sillago japonica, Ditremma temmincki, Tridentiger trigonocephalus, Hippocampus japonicus* and *Petroscirtes breviceps* in an eelgrass, *Zostera marina*, bed by S.N. Kwak, S.-H. Huh & D.W. Klumpp 353–364

Abundance, size, and feeding success of larval shortnose suckers and Lost River suckers from different habitats of the littoral zone of Upper Klamath Lake by M.S. Cooperman & D.F. Markle. 365–377

Threatened fishes of the world: Iotichthys phlegethontis *Cope, 1874 (Cyprinidae)* by J.H. Hanks & M.C. Belk 378

Host length, age, diet, parasites and stable isotopes as predictors of yellow perch (*Perca flavescens* Mitchill), trophic status in nutrient poor Canadian Shield lakes by M.W. Johnson, R.H. Hesslein & T.A. Dick 379–388

Correlation of acoustic and visual signals in the cichlid fish, *Tramitichromis intermedius* by J.L. Ripley & P.S. Lobel 389–394

Estuarine habitat preferences of *Anguilla australis* and *A. reinhardtii* glass eels as inferred from laboratory experiments by V. Silberschneider, B.C. Pease & D.J. Booth. 395–402

Homeothermy in adult salmon sharks, *Lamna ditropis* by K.J. Goldman, S.D. Anderson, R.J. Latour & J.A. Musick 403–411

Occurrence of the parasitic sea lamprey, *Petromyzon marinus*, on western North Atlantic right whales, *Eubalaena glacialis* by O.C. Nichols & P.K. Hamilton 413–417

Volume Contents 419–421

Author Index 422
